When you have been arrested for a DWI you need a lawyer who can protect your rights, make sure you're treated fairly, knows the system, studies the law, understands the science, and will fight to get results. I am that Lawyer.

You are probably feeling angry, confused and a little afraid of what might happen to you.

The process of being arrested is dehumanizing and embarrassing and I sympathize with you. I don't want to scare you but you are faced with a very serious charge.

In this page I am going to give you an outline of what is ahead. As I am sure you have discovered, if you are convicted of a DWI, you lose your license, your insurance goes up monumentally, and you face the possibility of jail along with other punishments.

Additionally, it is a criminal conviction which could cause you trouble in finding jobs and insurance and in many other ways.

I can help you through this challenging thicket. There are many ways to challenge the State in a DWI case. We will discuss and I will raise all possible challenges that might result in a better outcome for you.

I start with the position that you are not guilty. After you have retained me, I first draft my closing argument as to why you are innocent. Then I will know the defenses I need to prepare. I will make the State prove their case beyond a reasonable doubt.

Many lawyers nearly never try a DWI case. I try a lot of cases. My goal is to have you found not guilty of all charges. I temper that goal with an understanding of the sentencing consequences in DWI cases. I never want to plead not guilty and have my client punished more harshly because of a such a plea and I am often able to avoid additional punishment by being careful about where, when, and how we argue your case.

District Attorneys have a lot of responsibility in DWI cases and are often not well prepared to perform all of the duties required of them because they are accustomed to guilty pleas being entered at an early stage. I can't promise that you will be found not guilty because each case is different. I can promise that I will leave no stone unturned in my quest to minimize the consequences to you in every way.

When you hire me, you will get my 25 years of experience, my very bright and capable associate, and my excellent staff, all of us working as a team towards the goal of getting you the very best result. I have the best team in North Carolina, and we are all focused on helping you

get through this problem as easily as possible. I will put pressure on the District Attorney's office to do all of the work that is required of them. DWIs are the most complicated cases in misdemeanor court and often District Attorneys that are assigned to misdemeanor court in North Carolina are less experienced than the District Attorney's that present more serious cases.

In every DWI case in NC the district attorney has to prove:

- * You were driving on a street, a highway or a public vehicular area.
- * That you were actually impaired or that you tested .08 or greater on the breath test at the station or on a blood test.
- * The officer had the right to stop you or had the right to question you.
- *The officer had probable cause to arrest you.
- * All the procedures were followed in regards to your arrest and in regards to breath or blood testing.
- *You were properly informed of your rights at the appropriate times in the process and you were not prevented from exercising those rights by the state's agents.
- *You were treated fairly during the process.

As you can see a DWI case is never simple. You need the most aggressive and best respected lawyer. You have found that lawyer!

Free consultation-\$250 value.

In a DWI case, I charge a flat fee, not an hourly rate; but when I'm charging a hourly rate, my hourly rate is \$250 per hour. When you meet with me and my staff, there is no charge for the consultation. We take as long as you need as we explain all the in's and out's, all of the possible consequences, and all of the techniques we will use in your case to get you the best result available.

Once you have discussed your case with me and my team, you will know all you need to know about your case and the system in North Carolina. Of course I will follow up with any questions that occur as the process moves along and will keep you informed of any progress we have made.

Undoubtedly there will be developments and questions that I can't discuss at the initial conference, but we will begin preparing your case right then! Unlike a lot of attorneys I begin preparing my case at the first opportunity. Many attorneys wait until the day of court to think about their cases and thus don't get the results that you should expect.

To arrange for your consultation call me at my office. You can talk to my staff and arrange a meeting or you can leave a message 24 hours a day. Someone on the team will call you back promptly. I prefer in person consultations. However, I understand that it may be difficult for someone that has been charged with a DWI and has lost their license and particularly difficult for someone who does not live near my office. We will work with you to make that consultation as easy on you as possible (even having phone consults where necessary) while still gathering all of the information that we need to perform at the highest level on your case.

In summary, with my help you will get:

***A free consultation**

***Complete explanation of the plan for your case.**

*** The right to be involved in all of the decisions relating to your case, which inevitably requires you to understand all of the aspects of your case plan.**

*** Reasonable fees which you will know about in advance.**

***25 years of experience. Since 1983, I have been helping people like you. Though I am willing to accept a fair and peaceful resolution, I am eager to fight and get you the best result.**

Additionally if you are charged with a DWI and tested .08 or greater or alleged to have refused you immediately lose your privilege to drive in North Carolina for 30 days. I will discuss the options with you, including a driving privilege that is available to some people after 10 days at our initial consultation. **You've got nothing to lose and a lot of knowledge to gain by calling me at 919-688-1941 and scheduling a free consultation. Call me today!**

Sincerely,

Marcus E. Hill

P.S. In case you are still undecided about whom to call, let me remind you that it costs nothing to talk to me and by the end of our talk you will have much more knowledge and information about the process and penalties you face. Additionally, I will handle all other criminal charges related to the DWI for one fee. Waiting may cause you to forego some of your rights and privileges-call me today!
